Presentation Style Comments

all good

Nice presentation style -- relaxed. As was noted in the room, your moving around and ease of presenting was nice. Would be useful for you to repeat the answers given by the audience for the questions you posed so that you're sure everyone can hear the answers. Watch the phrase "kind of" sneaking into your speech -- it undermines your appearance of confidence/professionalism.

Good overview of the MOA. Perhaps go a bit more slowly to give folks time to absorb the information a bit more.

As on previous comment, I think you could slow down just a bit to give people more time to absorb the background. It was there, but I think you could go over it a tad bit more slowly.

Well done. Might be nice to have figures of data, not just numbers. Good job talking about the study being underpowered to detect adverse events.

You did this well. However, I'd love to see you take this section beyond your recommendations based on what was done and to have you talk about what we still need to know. What is still unanswered, in your mind, and what study would you do next.
