Presentation Style Comments

Really excellent job. You sounded confident, didn't rush or stumble. Great pace.

You have a GREAT presentation style. I really wanted to hear what you were saying.

you were very confident in your seminar

Great pace and personal touch

Smooth style!

I love the presentation. It was humorous without being unprofessional.

I really enjoyed how you were able to make funny comments about a very serious situation. You were very confident while presenting

Good level of confidence, well prepared.

Great eye contact and material was presented at the appropriate level for the audience.

Good topic

Very engaging

could tell was very comfortable presenting

Great excitement for the topic and great pacing. It sounded well rehearsed and kept me interested throughout the presentation. Careful of too much slang (such as "someone pinched the crap out of this avocado":) but I don't think you overdid it considering the audience and situation.

You presented the seminar in such a confident tone and I liked the illustration with the avocado.

You seemed very comfortable up there, like a seasoned veteran.

Good presentation. Fun and informative!

Great overall style /

good presentation style which kept the audience engaged, very confident

pace was on point, a little fast

Great job- I really enjoyed your seminar.

Pace was excellent, material was presented at an excellent level for the audience but feel free to step out from behind the podium. Clearly you weren't nervous but move a little more.

Awesome job. Nice bolo

very smooth & relaxed

very comfortable presentation style. great job

Great presentation style, comfortable pace, engaged audience

Great voice and presentation style throughout seminar.

Chris is very comfortable in front of the audience and kept a very good pace

Instructional Materials

| # | Question | A | A- | B+ | B | B- | C+ | C | NA | Mean |
|---|--|----|----|----|---|----|----|---|----|------|
| 1 | Slides and handout were clear/easy to read | 24 | 2 | 1 | 0 | 0 | 0 | 0 | 0 | 6.85 |
| 2 | Slides and handout are devoid of spelling and grammatical errors | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 0 | 6.96 |
| 3 | Provided orientation to charts/graphs/pictures/diagrams (if applicable) | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 4 | Cites appropriate references/correct referencing style and emphasizes primary literature | 25 | 1 | 1 | 0 | 0 | 0 | 0 | 0 | 6.89 |

Instructional Materials Comments

Some of the results slides were a bit wordy and could have been broken up into 2 slides. Some of the results tables were really hard to see. The citing on slides should have listed the actual references, not numbers since most people either forget to show their reference slide at the end or it's too small to read.

I really liked your slides and that you didn't overwhelm me with the number

slides were nice and clean, not too crowded

wonder figures showing the TBI

Easy to read slides and handouts

The conclusion slides at the end were a little wordy. Also you have the Author's conclusions up there, but not your own on the slides. I'm not sure you mentioned them in the presentation either. It seemed you saved it all for the final overall conclusions. Not bad, just different from what we are used to.

I really enjoyed how you made the slides very brief, but then expanded on them when you talked

Slides and handout looked great.

Slides and handouts were clear and easy to read.

Liked your HO

Few misspellings

great clear slides /

great slides, tables, and pictures. They helped me understand the material and kept my interest.

Slides were not cluttered and easy to follow

Great material, I know you were critiqued about concluding things that were not in your presentation but you did have an excellent handout that went over those items.

Good handout

Slides were clear and easy to follow

excellent slides and handout

very easy to follow handout

Great job!

I did notice a few sloppy things in your slides like misspelling a drug name or two that were then spelled correctly on the following slide and boxes not being perfectly aligned. I thought the material was very beneficial just work on some of the details and give it a once over for visual.

Very well done

slides were clear to follow

great handout and slides. clear and straight forward

No problems reading the slides or handout

Good job using the laser pointer and orienting us to tables in slide deck.

Slides were nice

Overall Presentation Content

| # | Question | A | A- | B+ | B | B- | C+ | C | Mean |
|---|--|----|----|----|---|----|----|---|------|
| 1 | Introduction, interest in topic, and outline/objectives described | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 2 | Defines purpose/controversy of seminar topic clearly | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |
| 3 | Objectives clear and useful for self assessment | 25 | 1 | 1 | 0 | 0 | 0 | 0 | 6.89 |
| 4 | Appropriate background information was provided | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |
| 5 | Well organized presentations and smooth transitions (appropriate 'flow') | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |

Overall Presentation Content Comments

Thank you for sharing such a personal topic. The objectives were well balanced between the intro section and the clinical studies. However, try to use different verbs for your objectives; you used "describe" 3 times.

Very well organized. Your organization really added to your presentation.

outline was very clear. very good interest in topic

Great personal touch. You inspire me.

Great intro, using yourself as the case really got everyone paying attention

Thanks for the background and providing an interesting case study.

Very strong introduction and background on the interest in the topic, this was the strongest introductions I have heard all semester

Background had proper depth; presentation was well structured.

Great interest in the topic. Background was appropriate.

Interest clearly defined

Try to use the word "so" less.

background and interest in topic was top notch

Your personal experience with the topic was awesome and helped carry the entire presentation. I liked how you kept going back and referring to your personal experience to help illustrate ideas. I also liked how you explained you endpoint measure (the glasgow-coma score) before getting into the studies.

The interest in this topic is very personal. Thank you for sharing with us

Great job

Good job with the background

Interest in topic was very clear. Worked in story well

good background info and definition of controversy

objectives were thought provoking

Great background- I liked the personal touch you added.

Excellent...use a different transition than "so"

Great use of personal story

it was very interesting. thanks for sharing your story

great overall content. it really made it interesting to hear about your personal

Very good job explaining your interest in the topic and giving us a reason to be interested too.

Great idea to incorporate a patient case and the background information was great.

very interesting that he was talking about personal experience

Presentation of Clinical Data

| # | Question | A | A- | B+ | B | B- | C+ | C | NA | Mean |
|---|--|----|----|----|---|----|----|---|----|------|
| 1 | Presented concise objectives, methodology and treatment for each study | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 2 | Outcome measures were stated and described, and appropriateness was explained | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 3 | Presented key trial results with corresponding statistical analysis | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 4 | Student is able to determine if sample size and power is appropriate (if applicable) | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 5 | Withdrawals and dropouts are accounted for (if applicable) | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 6 | Provided a detailed & thoughtful analysis of study strengths and limitations | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |

Presentation of Clinical Data Comments

I thought your strengths and weaknesses for your studies were very detailed and thorough. I also appreciated you explaining why you chose the studies you presented.

You did a great job really highlighting the important aspects of your studies rather than giving us every small detail.

good reasoning for picking studies

very detailed approach to studies

Good data analysis, trials appropriate and covered well

Excellent interpretation and presentation of the data.

You provided very detailed analysis of the strengths and weaknesses of the studies and addressed the statistics involved with each of the studies

Good analysis of the data.

Addressed power and sample size. Great analysis on study strengths and weaknesses.

Analysis was thoughtful and appropriate

.

complex data simplified well

Your study analysis was in-depth and I thought you did a great job analyzing the studies for strengths and weaknesses, as well as explaining the studies to the audience.

You presented the material in a way we could understand.

Great job

Good job analyzing trials

Good job with clinical data

excellent job presenting complex study designs

data was well analyzed and broken down

Good job explaining why you chose the studies you chose.

I had no issues here - well presented given the limitations of seminar

Great explanation of why you chose your studies

outcomes well stated

great analysis of the studies. they were difficult, but you did a great job

Was able to provide thoughtful analysis of the studies

Good job analyzing withdrawals and dropouts. The presenter did a great job analyzing the strengths and weaknesses of each trial.

Tough trials to analyze but did a great job

Conclusions

| # | Question | A | A- | B+ | B | B- | C+ | C | Mean |
|---|---|----|----|----|---|----|----|---|------|
| 1 | Conclusions are supported by data presented in the seminar | 24 | 3 | 0 | 0 | 0 | 0 | 0 | 6.89 |
| 2 | Clinical importance and application of the study is discussed | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |
| 3 | Provided specific recommendations for clinical pharmacy practice | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |
| 4 | Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |

Conclusions Comments

I liked how you gave recommendations for pharmacists in different aspects of the pharmacy profession like acute care, retail and research. Good idea!

Awesome conclusions, and I loved your personal tie in

good job at providing your own conclusion due to the limitations

some side effects mentioned, but not presented in the data

Drew appropriate conclusions

I think your conclusions would have been more appropriate if you had provided more information on costs and potential abuse information in your background of the drug. Based on the studies presented; however, your conclusions are still justified.

I really enjoyed your conclusions and how you made them so personal

Sound conclusions.

Good recommendations and conclusions.

Good role of pharmacist

.

good clear well thought out conclusions

I felt your recommendations were great considering the conclusions and quality of the data.

Given that you experienced a TBI first hand, the importance of this topic is clear.

Great job

Good conclusions

I feel you did a great job discussing the role of the pharmacist

conclusions well supported by the data

conclusions agreed to what that data presented

Good job

I thought your conclusions were appropriate. It is common knowledge that there are some issues with methylphenidate use and not sure you have to present data to use them in your conclusion but perhaps a background slide as Dr. B mentioned would help the audience orient to the conclusions more easily.

Great conclusions beyond just what the studies say

conclusions were well supported

great conclusions. a very interesting topic

I really liked that you had firm conclusions, didn't leave any uncertainty in the air like many seminars do.

Conclusion was clear, concise, and to the point.

Conclusions were supported

Question Answer Session

| # | Question | A | A- | B+ | B | B- | C+ | C | Mean |
|---|--|----|----|----|---|----|----|---|------|
| 1 | Succinctly, yet thoroughly answered audience questions | 24 | 3 | 0 | 0 | 0 | 0 | 0 | 6.89 |
| 2 | Encouraged questions and interaction with the audience | 26 | 1 | 0 | 0 | 0 | 0 | 0 | 6.96 |

Question Answer Session Comments

I thought you did a good job answering questions. I like how you mentioned when you didn't know something for sure and let us know you were guessing. I also liked how you used your own experience as a case to make your seminar more personable and make your audience more interested.

You really were in control of your questions.

you did a good job at encouraging questions

some lack of confidence in answering questions

Answered Q&A effectively

Slow down and think about the questions before answering them.

You provided plenty of opportunities for the audience to ask questions and you answered them very well

You fielded questions well.

Answered all questions.

Thought well on your feet

Take a second to think/formulate answers to questions.

answered questions very well

You gave clear, concise answers to questions that you knew, and asked for help with the one you didn't. Excellent job.

You seemed very knowledgeable.

You did fine answering the questions that were asked

Great job answering questions

Very natural with questions asked. Great job

take more time to consider the question before answering, nice job

handled all the questions with ease and comfort

Good job

Fine - encouraged and answered quickly. Feel free to extrapolate and no need to apologize for not knowing an answer unless it is something super obvious.

Well done

he answered all questions well

focus on what the presenter is saying before you answer. great job on being confident though

Encouraged questions throughout, and was able to answer them as asked.

Good job encouraging and answering questions.

Great on his feet, good job with questions

Overall Knowledge Base

| # | Question | A | A- | B+ | B | B- | C+ | C | Mean |
|---|--|----|----|----|---|----|----|---|------|
| 1 | Demonstrated knowledge of subject beyond the facts presented in the seminar | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 2 | Student is able to distinguish the difference between clinical and statistical significance | 25 | 2 | 0 | 0 | 0 | 0 | 0 | 6.93 |
| 3 | Student is able to look beyond the author's conclusions and offer insight into the overall study results | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 4 | Student is able to discuss conclusions in the context of previous research and in comparison to current practice/therapy | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |
| 5 | Student is able to think on his/her feet. May theorize if not sure of answer, but identifies answer as such | 27 | 0 | 0 | 0 | 0 | 0 | 0 | 7 |

Overall Knowledge Base Comments

It was clear from the questions and answers that you really studied your articles well. It was also clear that you researched this topic very thoroughly. I also liked that you put the rating scales in the appendix of your handout for us to be able to see.

I really have to credit you on this because I listened to your seminar and believe you are an expert on the issue

you were able to look beyond the author's conclusion and provide your own idea on the role of methylphenidate

good distinguishing clinical for statistical

You were obviously a master of the topic

This happened to you, you cannot really trump personal experience.

I really liked how you distinguished the difference between clinical and statistical significance

You knew what you were talking about.

Good overall knowledge beyond the seminar.

Knew material well

It was clearly there.

clearly demonstrated background knowledge

I was impressed with your ability to quickly pull upon your knowledge from outside what you presented. I could tell you were interested in the topic. You did a good job theorizing, but let the audience know when you were and used your resources (faculty) when asked a difficult bias question. good job.

For questions you didn't know, you put in effort to come up with a possible answer

Great overall knowledge base

Great job

Able to discuss clinical significance.

could tell you understood the studies, they were difficult to present and you did it well

i could tell you knew your stuff

For only being at 60%, I admire your quick response to questions and wealth of knowledge. Good job!

You've lived it so...nice job here, you knew your stuff and your passion/story came across really nicely

Knew material well and thoroughly

demonstrated knowledge very well

very knowledgeable about your topic. great job! /

It was clear that you had knowledge into the topic beyond what was presented,

Great job analyzing clinical and statistical significance.

the personal experience with TBI added a level of knowledge we have not yet experienced in seminar to date

Provide one comment on what you liked about this seminar

I liked how you used yourself as a case throughout the entire seminar. It helped us better understand the scoring system and it helped us understand how difficult simple tasks became after a TBI.

I loved your personal connection. It kept me engaged the entire duration of your seminar.

i enjoyed the personal touch you brought to this seminar. good job on the interest and research behind it

your personal touch was your strongest point

The personal story was awesome

ALL OF IT, IT HAS BEEN MY FAVORITE SEMINAR ALL SEMESTER.

Wow Chris, that was an awesome seminar, I think it was one of the best I have heard all semester. I really enjoyed how you chose something that was so important to you personally.

The bolo tie took everything to another level. Well done.

The topic was of personal interest.

Applicable topic

Will be very useful to many of us.

background was top notch

I loved the personal story and the way you kept tying into it. I could tell you were genuinely excited about the topic and it kept me interested the whole time.

I liked that you had a personal link to your seminar. Thank you again for sharing.

Presentation style was very relaxed

Great seminar. Well presented and interesting topic!!

Great topic. ICU and ED pharmacists and Docs would be very interested to hear your conclusions and the outcomes of the studies

i like how you applied your personal experience, that kept it very interesting

your passion about the topic

Definitely your personal connection to the topic- LOVED your seminar!

Controversy is very interesting, not a lot of data, allowed to make some interesting discussion. Really liked how the personal story infused throughout the seminar.

Very entertaining, good pace, wouldn't change a thing

his own story and avocado

Really like the pace and personal application of this seminar.

Your seminar was really interesting because it involved something so personal to you, thank you for being able to share your story with us and make it easy to follow along and relate to the presented information.

Presenter did a great job with incorporating a patient case and using it all the way through the seminar.

The personal aspect brought a whole new level of understanding to the topic

Provide one comment on what could be improved about this seminar

Maybe put some of the study slides onto two slides or cut tables in half to make the text easier to read, especially for those sitting in the back of the room.

I have no constructive criticism. You did a great job.

improve on the pharmacist role

confidence in answering questions

Maybe move around a bit more, you were behind the podium most of the time

There were some "so"s and "uh"s nothing big, though.

Nothing major I could think of, I would have enjoyed it if you could have spent a little more time on your conclusions, but you were running out of time so I understand.

Nothing major.

I thought it was the best one of the semester.

May want to repeat audience questions before answering

.

listen to the whole question before answering

Just watch the slang during professional presentations, but I don't think it hurt you in this case. Great job!

It seemed like you ran out of time near the end when you wanted to cruise through the role of the pharmacist. Maybe next time you can spend a little bit less time for the background info.

nothing

Nothing

Note much to say here. Give yourself a pat on the back

no additional comments

pace could be slower

N/A

Move around a bit more, say less "so"

Nothing

none

no comment

In all honesty I cannot think of a piece of constructive criticism, I feel like you nailed this seminar! All I can say is you find things to improve on, you will be even more spectacular at presenting to an audience.

Cut out or summarize tables in studies and create your own tables in your slide deck - some of those images and figures were a little hard to read.

Great job overall

General Comments

Very good seminar. Applicable topic and well thought out strengths, limitations and conclusions. I thought you did a great job!

In my 4 semesters of seminar I want you know that this was the best seminar I've heard. Your topic was great, but your organization and ability to present made your seminar great.

great job on your seminar!

you are an inspiration

Great job!

Great job!

Awesome job Chris!

Great job.

Great job. Its over.

Great job.

Excellent presentation, very interesting the whole time!

Overall excellent job!

Nice job

his presentation style was the best

Thank you for the interesting seminar and for the pizza and drinks!

Great job overall.

Loved the bolo
