

# Presenter: Lane, Robert

Seminar Date: 2013-12-04

## Presenter Scores

Student Survey Data Averages							Faculty Survey Data Averages							Final Scores			
Pres. Style	Inst. Materials	Overall Pres.	Clinical Data	Conc.	Q&A	Overall Knowledge	Pres. Style	Inst. Materials	Overall Pres.	Clinical Data	Conc.	Q&A	Overall Know.	Prep.	Prof.	Att.	Total
6.82	6.82	6.75	6.86	6.67	6.85	6.92	6.13	6.38	6.4	6.3	5.88	7	6.4	0	0	0	E (46.45)

Presentation Style									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Moderate Pace	1	1	0	0	0	0	0	6.5
2	Thorough eye contact/ minimal reliance on notes	1	0	1	0	0	0	0	6
3	Displayed professionalism/ poise/ confidence/ lacked distracting mannerisms	0	1	1	0	0	0	0	5.5
4	Material presented at the appropriate level for the audience	1	1	0	0	0	0	0	6.5

## Presentation Style Comments

Your pace was great. Your voice drifted off occasionally, making it a bit difficult to hear a few things, but not too distracting. Because we didn't have the remote, you ended up reading off of the screen a bit.

Your talk was at a nice, non-hurried pace and was well received by the audience.

Instructional Materials										
#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Slides and handout were clear/easy to read	1	1	0	0	0	0	0	0	6.5
2	Slides and handout are devoid of spelling and grammatical errors	1	1	0	0	0	0	0	0	6.5
3	Provided orientation to charts/graphs/pictures/diagrams (if applicable)	0	2	0	0	0	0	0	0	6
4	Cites appropriate references/correct referencing style and emphasizes primary literature	1	1	0	0	0	0	0	0	6.5

### Instructional Materials Comments

The slides were clear and easy to read, you did a great job of referring to your handout during the presentation. A few type-os.

Your slides were easy to read - sometimes a bit wordy - but overall provided good instructional support.

## Overall Presentation Content

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Introduction, interest in topic, and outline/objectives described	1	1	0	0	0	0	0	6.5
2	Defines purpose/controversy of seminar topic clearly	0	2	0	0	0	0	0	6
3	Objectives clear and useful for self assessment	1	1	0	0	0	0	0	6.5
4	Appropriate background information was provided	0	2	0	0	0	0	0	6
5	Well organized presentations and smooth transitions (appropriate 'flow')	2	0	0	0	0	0	0	7

## Overall Presentation Content Comments

Great flow, I really liked the way you organized the talk. The case study was also great (including your personal follow-up knowledge of the topic).

This seems to be a challenging topic since the number of studies that show a positive effect by one particular component of the health care system is lacking at this time.

Presentation of Clinical Data										
#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	2	0	0	0	0	0	0	0	7
2	Outcome measures were stated and described, and appropriateness was explained	0	2	0	0	0	0	0	0	6
3	Presented key trial results with corresponding statistical analysis	0	1	1	0	0	0	0	0	5.5
4	Student is able to determine if sample size and power is appropriate (if applicable)	1	0	0	0	0	0	0	0	7
5	Withdrawals and dropouts are accounted for (if applicable)	1	0	0	0	0	0	0	0	7
6	Provided a detailed & thoughtful analysis of study strengths and limitations	0	2	0	0	0	0	0	0	6

### Presentation of Clinical Data Comments

You seemed to know the data very well - to be able to explain the metrics clearly and do the math in your head.

You constructed a good story with the studies you pulled together; however, there seemed to be limited data that directly assessed the controversy.

## Conclusions

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	0	2	0	0	0	0	0	6
2	Clinical importance and application of the study is discussed	1	1	0	0	0	0	0	6.5
3	Provided specific recommendations for clinical pharmacy practice	0	1	1	0	0	0	0	5.5
4	Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment	0	1	1	0	0	0	0	5.5

## Conclusions Comments

This was a tough one because it's not clear yet what best practices are. But because it's so clear that medication adherence is a critical issue, I would have liked to have seen slightly stronger recommendations (outlined in the handout as well as the slides). Since so many will go on to work in community pharmacies, this is something they can either have an impact on or ignore. It seems that better studies need to be done. Your recommendation to document pharmacist interventions is spot on. But exactly what those interventions should be is hazy. With EMRs what they are, perhaps a pharmacist could choose an intervention or two and test it out for a year, then try something else and compare results within their own practice - their own "mini-study". Someone has got to work out best practices, why not us?

Your conclusions were reasonable but the most pertinent study did not show a strong relationship for your relationship with pharmacists role in the process.

Question Answer Session									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Succinctly, yet thoroughly answered audience questions	2	0	0	0	0	0	0	7
2	Encouraged questions and interaction with the audience	2	0	0	0	0	0	0	7

### Question Answer Session Comments

Great job engaging the audience and answering questions.

You did a good job addressing questions asked by the audience and engaged the audience with your story.

Overall Knowledge Base									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Demonstrated knowledge of subject beyond the facts presented in the seminar	1	1	0	0	0	0	0	6.5
2	Student is able to distinguish the difference between clinical and statistical significance	0	2	0	0	0	0	0	6
3	Student is able to look beyond the author's conclusions and offer insight into the overall study results	1	1	0	0	0	0	0	6.5
4	Student is able to discuss conclusions in the context of previous research and in comparison to current practice/therapy	0	2	0	0	0	0	0	6
5	Student is able to think on his/her feet. May theorize if not sure of answer, but identifies answer as such	2	0	0	0	0	0	0	7

### Overall Knowledge Base Comments

Great.

You were able to engage the audience in your presentation and demonstrate your knowledge on the topic.

## Overall Comments

Great job, I'm so glad you went through with it! Hopefully the numbers will work in your favor!

I like how you built your story which would seem to indicate that there can be improved outcomes and reduced health care costs but that there is a clear lack of appropriate measures for the roles of different health care workers, including pharmacists.
