Great pace, you had a lot of information but did a good job at picking out the most important info.

Like I said, very smooth

presentation style is very strong, very easy to listen to you and follow along

Confident, relaxed, used space to move, held audience attention. Defined items that students would not be familiar with. Great job!!

Na

Mike- you're always a great presenter. You didn't have to look at any notes and you're so comfortable up there. Great job!

Great, natural presentation style

a little fast but still nice pace

I especially liked the attention getter at the beginning of this presentation, with the Heath Ledger anecdote.

Well spoken, confident

Lots going on with some of the slides but it was great, as we discussed afterwards, that he circled in on the pertinent information on some of the bigger slides where there was a lot going on

Lots of detailed information.

Excellent handout- easy to read with the bullet point format. Slides were clear without spelling errors. Always orientated us to the graphs/pictures

Some slides were a bit word heavy. Try to avoid when possible.

.

NA

Great slide and handout, very well organized.

Charts were well described

nice work on highlighting important information on busy slides

Slides and handout nicely done. Did not think any of them were too busy. When tables were difficult to read, you oriented them with highlighting.

Na

very informative

I think there were a couple of graphs that you didn't orient to but overall, great job.

Some of the information slides were quite busy and overwhelming. I would try to whittle them down.

nice reference

I thought the organization of the slides were really visually appealing and easy to follow. The format

was uniform throughout.

Bullet point on hand out added clarity. Highlighted busy slides to focus audience in on important info.

Lots of relevant clinical data.

Clearly the expert on this topic! You did an excellent job presenting the clinical data and I felt that it made crystal clear sense by the end of your presentation.

..

.

NA

Great at presenting the data and explaining the reason you did each type of analysis.

Enjoyed that fact that you used a case control study. Bold move

nice job explaining the complex outcome measures.

Knew studies inside and out. I don't think I've heard anyone explain their studies as well as you did with yours. Assessment of strengths and limitations was detailed and well thought out.

Na

very good handle of the information

Good job

Good, solid supporting studies, well analyzed.

very detailed analysis

The concision of this seminar I thought was perfect! Easy to follow and listen to and also effectively communicated the necessary information.

Good wrap up with how this applies PharmDs and what we can do

Good summary and recommendations.

Great conclusions and role of the pharmacist. Very applicable.

.

.

NA

Great conclusion

Great job discussing our role at the end

no additional comments

Conclusions were clear and applicable to PharmDs. I like that you used career and personal experience to develop your conclusions. Also like that you included changing trends and proposed management guidelines.

Na

strong potential guidelines for future

This seminar was really informational and relevant. I'm always thinking about this interaction when I'm counseling patients. You do great at pulling information from so many different sources to make really relevant conclusions. I really like that you look at future trends as well.

Evidence-backed conclusions, made it relate to all of us.

his conclusions were very well supported

I found that the seminar effectively demonstrated the clinical importance of the danger of benzos and opioids in combination. However I think the seminar did not effectively demonstrate a recommendation or solution to the problem. I understand this problem would require an inter-disciplinary approach and would not be easily fix with just one person's suggestions. I just felt at the end of the presentation that we were not given a clear idea of what needs to be done or how to move forward to fix this problem.

Role of pharmacy was very clearly laid out

Unfortunately no a lot of questions asked even though Mike tried to prod some out of the audience, however those that were asked were met with a succinct answer

He was the expert in the field no one really had any questions.

Answered the few questions you were given succinctly. Did a great job pausing for questions as you went through your presentation.

.

.

NA

great

There were some very engaging portions of you presentation

not many questions, this means it was clear

Definitely the expert.

Na

good handle of questions

You always do a great job at this! We can all tell that you've had lots of experience in this field just by hearing you answer the variety of questions you are asked.

Great ability to answer questions

no one had any question because he had a good job explaining everything during the presentation

Knew the answers addressed by the audience and gave sufficient time and opportunity to ask questions.

Didn't provoke a lot of questions, which was probably the biggest weakness of the seminar

Michael was clearly knowledgeable on the topic

Hard to tell if he could think on his feet because of the lack of questions, but certainly seemed like an expert on the topic

Provide one comment on what you liked about this seminar

Your topic is very relevant.

Mike obviously had a great amount of knowledge on the subject matter and beyond

He was the expert on this topic.

You set the bar high for the rest of the year. You are very comfortable presenting and make it appear so much easier than I feel like it is! You were very well prepared and that showed through your presentation and your handout.

Very relevant topic

great knowledge of topic and background.

very interesting topic

You clearly know this topic very well.

Just have a great style. Very convincing

presentation style and choice of topic in which you have clear interest and knowledge

I really appreciated the way you approached describing everything. You brought it down to our level to make sure everyone was on the same page.

Very good detail given. Thanks for circling the pertinent details

very applicable

Very informational! Your topics are always practical and easy for me to apply to practice.

Student seemed very authoritative on the subject and made things clear and easy to understand.

his topic was very interesting

I liked that this topic pointed out a problem we can all relate to. Also another formatting thing I liked was how Michael circled the important parts of slides and tables to look at.

Presentation was very professional

Provide one comment on what could be improved about this seminar

I could not follow the directio fo the data at times. As a result I did not understand its place at some points.

Cultivate more questions among the audience

Good information but maybe too much information on the slides. Maybe simplify the slides.

Stop making it look so easy! :)

Nothing, I enjoyed it

Very busy slides

maybe just pull out important information from the charts and make your own so it is less busy

nothing

nothing here

no additional comments, I cannot think of anything which could have clearly been done to make your seminar better

Really? Nothing. Loved it.

Perhaps tie in the sleep apnea in clear way

less busy slides

Can't think of anything. Great job!

Make the graph/info slides less busy. Too much fluff information that could be cut out.

pace?

There were a couple times that Michael used abbreviations or acronyms that I was not sure what they were and had to shuffle through the handout to try to understand. Example AHL.

Try to involve the audience more

General Comments

.

Great job overall; professional, knowledgeable, I felt like the presentation was a little above my knowledge level on the topic but can't say that was the same for everyone in the seminar

Good overall. Good job.
