4	Material presented at the appropriate level for the audience	3	0	0	0	0	0	0	7

Presentation Style Comments

Trent stood behind the podium, but maintained great eye contact with the audience. He also made effective use of hand gestures. Pace was great, and his delivery was poised and confident.

Trent displayed excellent pace, and style. He had very minimal to almost no reliance on external notes. He kept his gaze towards the audience and only looked toward slides when needed. Very clear that Trent had practiced presentation multiple times. Trent did an excellent job engaging the audience very early in the presentation.

Instructional Materials

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Slides and handout were clear/easy to read	2	1	0	0	0	0	0	0	6.67
2	Slides and handout are devoid of spelling and grammatical errors	3	0	0	0	0	0	0	0	7
3	Provided orientation to charts/graphs/pictures/diagrams (if applicable)	1	1	0	0	0	0	0	1	6.5
4	Cites appropriate references/correct referencing style and emphasizes primary literature	2	1	0	0	0	0	0	0	6.67

Instructional Materials Comments

Instructional materials were excellent. No data graphs to orient. Very thorough referencing of primary literature on slides.

Trent did an excellent job with his instructional materials. Slides had easy to read format. Personally, I prefer dark background with white lettering, but Trent had white background with dark letter, that seemed to work very well in the presentation room. Handouts were very easy to read. Both slides and handout were well organized and used bullets and other formatting elements to convey the information. Liked how Trent used red outlines on the slide tables to focus the attention of the audience to the points he was trying to make. I think this technique works much better than using a laser point.

Great use of red boxes!!!!

Overall Presentation Content

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Introduction, interest in topic, and outline/objectives described	3	0	0	0	0	0	0	7
2	Defines purpose/controversy of seminar topic clearly	2	1	0	0	0	0	0	6.67
3	Objectives clear and useful for self assessment	3	0	0	0	0	0	0	7
4	Appropriate background information was provided	2	0	1	0	0	0	0	6.33
5	Well organized presentations and smooth transitions (appropriate 'flow')	3	0	0	0	0	0	0	7

Overall Presentation Content Comments

Great presentation content! All bases were covered thoroughly.

Trent did an excellent job with his overall presentation content. He was very effective at using his personal circumstances and interest to engage the audience very early in the presentation and keep them engaged throughout. Trent is not a "loud" person, but he recognized need for a loud voice during presentation and this too, helped engage the audience. Objectives were reasonably simple, but were appropriate to the presentation.

Overall great job.

Presentation of Clinical Data

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	2	0	1	0	0	0	0	0	6.33
2	Outcome measures were stated and described, and appropriateness was explained	3	0	0	0	0	0	0	0	7
3	Presented key trial results with corresponding statistical analysis	3	0	0	0	0	0	0	0	7
4	Student is able to determine if sample size and power is appropriate (if applicable)	3	0	0	0	0	0	0	0	7
5	Withdrawals and dropouts are accounted for (if applicable)	2	1	0	0	0	0	0	0	6.67
6	Provided a detailed & thoughtful analysis of study strengths and limitations	3	0	0	0	0	0	0	0	7

Presentation of Clinical Data Comments

This section was particularly strong. Everything was covered including statistics and power.

Trent did very good job in analyzing the clinical data. He clearly did not accept the trials just because they were published. He was very deliberate and thoughtful in his analysis of the studies. He discussed the idea of a "Western" diet and how that could have biased one or more of the studies. Sitting in the audience and listening to his critique of the studies, I felt very confident in his analysis of the literature.

I would have liked to hear why you selected each trial as you introduced the trial. It would help the audience understand why that particular trial was important

Conclusions									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	1	1	1	0	0	0	0	6
2	Clinical importance and application of the study is discussed	2	1	0	0	0	0	0	6.67
3	Provided specific recommendations for clinical pharmacy practice	3	0	0	0	0	0	0	7
4	Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment	3	0	0	0	0	0	0	7

Conclusions Comments

Another strong section.

Again, Trent did an excellent job with his conclusions. His conclusions were very naturally drawn from his excellent critique of the literature. He did a very good job of transitioning into implications to pharmacy practice and provided some excellent instructions for what pharmacists should be doing regarding DHA.

Not sure the data at this time is strong enough to support DHA for all.

Question Answer Session									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Succinctly, yet thoroughly answered audience questions	3	0	0	0	0	0	0	7
2	Encouraged questions and interaction with the audience	1	1	0	1	0	0	0	5.67

Question Answer Session Comments

Great job of answering questions. Also, Trent's case study was a great way to engage your audience, though when you returned to it at the end of the seminar, you should have dwelled longer on it.

Trent did a good job responding to questions from the audience. The other faculty member asked a question about the source "grade" of the chemicals/products being used in the study, more specifically, whether the products were GMP compliant. I thought Trent handled the question very well. Trent demonstrates good critical thinking.

Great job answering audience questions. Think about ways to involve the audience throughout your presentations in the future (ask the audience questions about their experience, etc)

Overall Knowledge Base

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Demonstrated knowledge of subject beyond the facts presented in the seminar	3	0	0	0	0	0	0	7
2	Student is able to distinguish the difference between clinical and statistical significance	3	0	0	0	0	0	0	7
3	Student is able to look beyond the author's conclusions and offer insight into the overall study results	2	1	0	0	0	0	0	6.67
4	Student is able to discuss conclusions in the context of previous research and in comparison to current practice/therapy	2	1	0	0	0	0	0	6.67
5	Student is able to think on his/her feet. May theorize if not sure of answer, but identifies answer as such	3	0	0	0	0	0	0	7

Overall Knowledge Base Comments

Excellent knowledge base! Also, did a great job of differentiating statical and clinical significance.

Trent has a very good overall knowledge base. He did very well responding to questions. I think he understands this topic very well, at its present condition. An opportunity for improvement, might be in developing a vision for the future in this area. In seminar I realize students are instructed not to move beyond the facts. I think that is important, but it is also important to practice in a manner that meets the conditions of today, but also to look toward the practice of tomorrow. Accordingly, might there be some way to include or project possible other ways to use DHA to assist in pregnancy related issues.

You did a great job answering questions and thinking on your feet.

Overall Comments

Outstanding seminar!

Overall, Trent did an EXCELLENT job with his seminar. He think he has a very good grasp on this skill set and if he plans to make additional presentations in the future, he has very good experience to draw from. //
