Presentation Style Comments

Ann maintained a good pace throughout the seminar. I think the message was very appropriate for her audience.

Work on increasing inflection in voice when appropriate; and avoid trailing off of voice at end of sentences. / Decrease sentences on slides to reduce "comfort" reading. / pace was a bit slow, but timing perfect overall. / Very professional and patient centered.

Instructional Materials

4	Cites appropriate references/correct referencing style and emphasizes primary literature	0	2	0	0	0	0	0	0	6

Instructional Materials Comments

The slides were well designed. Everyone appreciated her re-presenting the relevant data in tables of her own drawing, and her highlighting of important findings.

Consider more charts etc. / More bullets /

Overall Presentation Content

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Introduction, interest in topic, and outline/objectives described	0	1	1	0	0	0	0	5.5
2	Defines purpose/controversy of seminar topic clearly	1	0	1	0	0	0	0	6
3	Objectives clear and useful for self assessment	0	1	1	0	0	0	0	5.5
4	Appropriate background information was provided	0	2	0	0	0	0	0	6
5	Well organized presentations and smooth transitions (appropriate 'flow')	0	2	0	0	0	0	0	6

Overall Presentation Content Comments

A couple of the objectives were too passive/vague. To be able to "understand the implications" or "discuss the potential role" of something isn't as measurable as being able to "identify signs" or being "able to counsel". Ann did a great job of covering the objectives in slides clearly dedicated to answering those questions. /

Objectives pretty vague - consider elaborating more to specific topic area. / Consider having a grabber prior to introduction. / Appropriate length for background - and specific to topic.

Presentation of Clinical Data

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	1	1	0	0	0	0	0	0	6.5
2	Outcome measures were stated and described, and appropriateness was explained	0	2	0	0	0	0	0	0	6

5	Withdrawals and dropouts are accounted for (if applicable)	2	0	0	0	0	0	0	0	7
6	Provided a detailed & thoughtful analysis of study strengths and limitations	1	1	0	0	0	0	0	0	6.5

Presentation of Clinical Data Comments

Key outcomes and trial results were particularly well presented. Some in the audience would have appreciated seeing a bit more of the "raw" data from the paper, but the seminar as presented was clear and efficient. I appreciated when she compared between the two studies to remind us that the first study used a lower dose than the second.

Nice eval of studies and presentation of pertinent details. / Consider reviewing what other studies are available and why you picked these. /

Conclusions									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	2	0	0	0	0	0	0	7

Ann did a great job answering questions, she could think on her feet and knew her studies very well.

Relatively few questions but did a good job with what was asked. /

Overall Knowledge Base Comments

Ann showed herself to be very knowledgeable of the topic. Her take home message was based on the study outcomes and pointed out selected symptoms/conditions that might be helped by the drug combination.

Depth of knowledge apparent - as was practice.

Overall Comments

Great first seminar

Knowledge and analysis - down / Work next on inflection, presentation and comfort without reading slides. / Great first seminar! /
