Presentation Style Comments

Outstanding presentation style. You went fast, though your delivery was also very smooth. I also liked the way you stood in front of the podium and rarely looked at the screen. Great eye contact and knowledge of your slides and material!

Could have slowed down ever so slightly to decrease stumbling over words. Felt a bit rushed. Good rapport with audience and good eye contact.

4	Cites appropriate references/correct referencing style and emphasizes primary literature	1	1	0	0	0	0	0	0	6.5

Instructional Materials Comments

Superb handout and slides!

For this room, would be good to have less white space at top of slides and to move text/items up so the content can be seen more readily.

Overall Presentation Content

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Introduction, interest in topic, and outline/objectives described	2	0	0	0	0	0	0	7
2	Defines purpose/controversy of seminar topic clearly	2	0	0	0	0	0	0	7

4	Appropriate background information was provided	1	1	0	0	0	0	0	6.5
5	Well organized presentations and smooth transitions (appropriate 'flow')	2	0	0	0	0	0	0	7

Overall Presentation Content Comments

Your presentation content was "right on". I particularly liked how you framed your controversy ending with four specific questions concerning the clinical significance of music therapy.

Good identification of objectives and controversy. I would have liked to have seen a bit more pathophysiology of epilepsy/seizures and what the hypothesized effects of this music is on the brain. More mechanism.

Presentation of Clinical Data

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	2	0	0	0	0	0	0	0	7
2	Outcome measures were stated and described, and appropriateness was explained	2	0	0	0	0	0	0	0	7
3	Presented key trial results with corresponding statistical analysis	2	0	0	0	0	0	0	0	7
4	Student is able to determine if sample size and power is appropriate (if applicable)	2	0	0	0	0	0	0	0	7
5	Withdrawals and dropouts are accounted for (if applicable)	1	0	0	0	0	0	0	1	7
6	Provided a detailed & thoughtful analysis of study strengths and limitations	2	0	0	0	0	0	0	0	7

Presentation of Clinical Data Comments

Your presentation of your two studies was exemplary. You hit all the key areas and your discussion of strengths and weaknesses was enlightening.

Good discussion of power and generalizability. Could have provided a bit more clarity/information on graphs, particularly the results from the 1st study.

Conclusions

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	1	1	0	0	0	0	0	6.5
2	Clinical importance and application of the study is discussed	2	0	0	0	0	0	0	7
3	Provided specific recommendations for clinical pharmacy practice	2	0	0	0	0	0	0	7
4	Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment	2	0	0	0	0	0	0	7

Conclusions Comments

I think that your conclusions, recommendations for pharmacy practice and discussion of the pharmacist's role were very well positioned considering the lack of definitive studies about the efficacy of music therapy in epilepsy.

You waffled a bit about whether there is an effect or not. I would have liked you to be bolder in your statement of your conclusions.

2	Encouraged questions and interaction with the audience	0	1	1	0	0	0	0	5.5

Question Answer Session Comments

Very effective Q&A session. / Next seminar try adding a case study or quiz at the start of your seminar to better engage your audience.

Didn't really stop/ask for questions during the presentation. Did a good job answering the questions.

Overall Knowledge Base

3	Student is able to look beyond the author's conclusions and offer insight into the overall study results	2	0	0	0	0	0	0	7
4	Student is able to discuss conclusions in the context of previous research and in comparison to current practice/therapy	1	1	0	0	0	0	0	6.5
5	Student is able to think on his/her feet. May theorize if not sure of answer, but identifies answer as such	2	0	0	0	0	0	0	7

Overall Knowledge Base Comments

Excellent knowledge base, which was very apparent by your introduction, very knowledgeable presentation style with almost no reliance on notes, your in-depth answer to questions including backup slides that you'd included specifically for answering questions. // I also really appreciate your discussions of both clinical significance and statistical power.

Would have liked to see broader discussion of the proposed effects of music on the brain -- a bit more detail on what's currently known/hypothesized in the field regarding mechanism.

Overall Comments

Very informative and educational seminar!

Well done overall!
