Presentation Style Comments

Your voice is very loud and clear (carries well). You have a warm, inviting, speaking style. / Please number your slides.

Presentation was great overall. Work towards less text on slides so you are less prone to read them to the audience. Also, try to avoid looking behind you at the slides (can use monitor on podium so you're facing the audience).

Instructional Materials										
#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Slides and handout were clear/easy to read	0	1	1	0	0	0	0	0	5.5
2	Slides and handout are devoid of spelling and grammatical errors	2	0	0	0	0	0	0	0	7
3	Provided orientation to charts/graphs/pictures/diagrams (if applicable)	1	0	0	1	0	0	0	0	5.5
4	Cites appropriate references/correct referencing style and emphasizes primary literature	1	0	1	0	0	0	0	0	6

Instructional Materials Comments

Thanks for referring to your handout during the talk. I would add the author name and year on the handout table (esp since so many studies). Your presentation was very text heavy-- you may consider the use of pictures, graphs, flowcharts, etc. All text is a bit too boring!

Very nice job with instructional materials. As stated previously, reduce wording on slides. Consider using an abbreviated reference format for the bottom of slides so they are more readable; full citation is in the handout.

5	Well organized presentations and smooth transitions (appropriate 'flow')	2	0	0	0	0	0	0	7

Overall Presentation Content Comments

I appreciated that you had a lot of studies (4) since it was a controversial topic.

Content was great; just work on objectives in the future - ensure they are all measurable.

Presentation of Clinical Data

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	1	1	0	0	0	0	0	0	6.5
2	Outcome measures were stated and described, and appropriateness was explained	1	0	1	0	0	0	0	0	6
3	Presented key trial results with corresponding statistical analysis	1	0	1	0	0	0	0	0	6
4	Student is able to determine if sample size and power is appropriate (if applicable)	1	0	1	0	0	0	0	0	6
5	Withdrawals and dropouts are accounted for (if applicable)	1	0	1	0	0	0	0	0	6
6	Provided a detailed & thoughtful analysis of study strengths and limitations	1	1	0	0	0	0	0	0	6.5

Presentation of Clinical Data Comments

Great job of describing data, and keeping on time, despite 4 studies.

Excellent job presenting all applicable literature. It's a challenge to present multiple studies given time constraints. Recommend you consider alternative ways to present data in this situation including both a modified evidence table in the handout (to easily compare and contrast the data) as well as incorporating strengths/weaknesses while presenting each study rather than trying to compartmentalize each in a rigid format. Make it a discussion and compare/contrast the studies with each other.

Conclusions									
#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	2	0	0	0	0	0	0	7
2	Clinical importance and application of the study is discussed	1	1	0	0	0	0	0	6.5
3	Provided specific recommendations for clinical pharmacy practice	1	1	0	0	0	0	0	6.5
4	Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment	0	2	0	0	0	0	0	6

Conclusions Comments

You could be more decisive/firm with your final conclusion (it had to be coaxed out of you)-- to recommend use before going to IVS. Maybe it could also be suggested to use with Vit E since VitE is not harmful.

Conclusions made sense based on the evidence. These data have the potential for lots of confounders which weren't discussed in much depth. I think it's hard to recommend clomiphene based on what you presented.

(could show structure of drug and explain MOA with the structure in mind?)

good knowledge base. Answered questions well and was able to theorize.

Overall Comments

Your natural, friendly, presentation style and clear voice that projects well are noted. You were well-prepared!

very clear presentation with excellent flow and timing.

Overall Comments

Mainly more interesting visuals (pictures, graphs, charts) would help.

clean up slides a bit (less wordy) use additional figures/graphics

Overall Comments

Overall, an excellent presentation. Thank you for your diligent preparation!

great job.
