Presentation of Clinical Data Comments

.

Good use of data to support argument

Thank you for not reading off a list of the tests they used and explaining all the criteria. I preferred how you just touched on the important ones you looked at and what the significance was.

Good presentation of clinical data.

Good data.

.

..

NA

Accounted for everything

Good presentation ans easy to follow.

Conclusions Comments

.

Conclusions logically drawn from material presented

It is difficult in this disease state, I understand, but it still was difficult to make a steadfast recommendation with each drug.

Good conclusions.

Good overall assessment.

.

..

NA

Great conclusion supported by your studies.

Good conclusions.

good job recommending first line choice but emphasizing individualized therapy

Na

good conclusion

good job

very appropriate for the seminar, i liked the practical nature of focusing on specific sx that need to be addressed

Great analysis of conclusions and great formation of your own conclusion.

I liked that she presented very clear drug recommendations for specific sx

.

I felt like the conclusions did not stray far from author's conclusions. I am not sure if this is a lack of theorizing or just that the author's conclusions were very straight forward and correct.

Great analysis of each study and was able to touch on how to individualize for each patient.

Good knowledge base.

Good knowledge

.

..

NA

Great

Great knowledge of the subject.

it was clear by your confidence in presenting your material that your knowledge base is strong

Na

good overall knowledge

You know so much! The amount of information that you added to your presentation that wasn't included in your slides was amazing. Way to go!

very knowledgeable and clearly demonstrated through several Q&A

excellent

She understood the topic very well and was able to discuss conclusions in the context of previous research and in comparison to current practice.

.

Very thorough presentation

Provide one comment on what you liked about this seminar

.

Knowledge base of seminarian on the topic was great and she was able to answer almost all questions

Thank you for not going into depth about all the surveys and analysis, rather than just summing it up to what is the most important thing to look for.

Most of it.

Pretty much flawless from beginning to end.

helped me understand PD and PDD a lot better

Very knowledgeable

you displayed a lot of confidence when presenting. and your slides were not wordy

I liked how you didn't just read from your slides. Very good at presenting your topic.

Good job presenting. The topic was interesting and you did great presenting it!

fantastic job putting everything into your own words on an easy to digest level, omitting unnecessary detail until questioned on it specifically. This is a difficult skill, especially in such a formal stressful environment, and you have it down

I liked the format of the handout

very smooth

You did a great job at sharing much more information than was on your slides. I have no idea how you remembered all of that information but I applaud you . Good job!

The topic was interesting and the way it was presented was very professional

Very engaging speaker. Kept my interest, explained things well.

by sharing her own experience with this disease she made it more personal.

Very well put together. Loved hearing about the personal connection to the topic

Presented without needing to look at notes or slides.

Provide one comment on what could be improved about this seminar

.

Speaking just a bit louder would have been helpful

You seemed a little eager to give recommendations due to the personal connections. Not sure if the drugs would really give an improved clinical outcome.

Not much.

Little long.

Nothing you are awesome and you are going to impress with residency interviews

n/a

orienting us to the graphs will help us understand better

NA

Nothing

you stated at the beginning we would be looking at patient examples, you mentioned individualized therapy and thinking about which component we are dealing with when formulating therapeutic plan, but i think some more specific examples could have been useful or interesting rather than just this broad statement.

None

too much info

Nothing-- great job

na

Spell acronyms on slides.

more cookies?? i think it was very very good

Was a little confused on your charts and graphs because they was no orientation

I felt like I did not stay interested in the topic throughout the presentation, I am not sure how she could have made it more interesting. Maybe somehow enforcing how it is applicable to me and my career.

General Comments

.

Excellent job overall, very informative seminar and I really liked all the background info

Overall, great presentation with great audience interaction skills.

Well done.

Great job.

Your amazing... Great job
