Presentation Style

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Moderate Pace	2	0	0	0	0	0	0	7
2	Thorough eye contact/ minimal reliance on notes	2	0	0	0	0	0	0	7
3	Displayed professionalism/ poise/ confidence/ lacked distracting mannerisms	1	1	0	0	0	0	0	6.5
4	Material presented at the appropriate level for the audience	1	1	0	0	0	0	0	6.5

Presentation Style Comments

I like how you paused between slides and looked at the slide on the screen and then faced the audience to speak

I liked your mix of data slides and text slides - please be sure to take just a second to orient the audience to the content of the graph so everyone is on the same page - most slides were easy to read and understand. Data tables from primary literature can be difficult to read.

Instructional Materials

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Slides and handout were clear/easy to read	1	1	0	0	0	0	0	0	6.5
2	Slides and handout are devoid of spelling and grammatical errors	1	1	0	0	0	0	0	0	6.5
3	Provided orientation to charts/graphs/pictures/diagrams (if applicable)	1	1	0	0	0	0	0	0	6.5
4	Cites appropriate references/correct referencing style and emphasizes primary literature	2	0	0	0	0	0	0	0	7

Instructional Materials Comments

Slides and handout were appropriate. Slides were very easy for the audience to read.

You used a different way to present the overviews of the studies you reviewed - I liked that you presented the data in a unique way - it certainly made me pay attention.

Overall Presentation Content

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Introduction, interest in topic, and outline/objectives described	2	0	0	0	0	0	0	7
2	Defines purpose/controversy of seminar topic clearly	1	0	1	0	0	0	0	6
3	Objectives clear and useful for self assessment	2	0	0	0	0	0	0	7
4	Appropriate background information was provided	2	0	0	0	0	0	0	7
5	Well organized presentations and smooth transitions (appropriate 'flow')	1	1	0	0	0	0	0	6.5

Overall Presentation Content Comments

Controversy was clearly stated and made obvious to the audience. Statins are an effective therapy and the goal is to manage / minimize myopathies so patients can continue on their statin therapy.

You did a particularly good job with the background material. You provided relevant information and the "news-making" information of the new guidelines was most appropriate.

Presentation of Clinical Data

#	Question	A	A-	B+	B	B-	C+	C	NA	Mean
1	Presented concise objectives, methodology and treatment for each study	2	0	0	0	0	0	0	0	7
2	Outcome measures were stated and described, and appropriateness was explained	2	0	0	0	0	0	0	0	7
3	Presented key trial results with corresponding statistical analysis	0	2	0	0	0	0	0	0	6
4	Student is able to determine if sample size and power is appropriate (if applicable)	0	2	0	0	0	0	0	0	6
5	Withdrawals and dropouts are accounted for (if applicable)	1	0	0	0	0	0	0	1	7
6	Provided a detailed & thoughtful analysis of study strengths and limitations	2	0	0	0	0	0	0	0	7

Presentation of Clinical Data Comments

Clinical data presentation was concise and clear to the audience

Your use of different types of studies was good; however, the goal of minimizing myalgias was sometimes not always clear as there was similar time or perhaps even more spent on LDL consequences.

Conclusions

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Conclusions are supported by data presented in the seminar	1	1	0	0	0	0	0	6.5
2	Clinical importance and application of the study is discussed	2	0	0	0	0	0	0	7
3	Provided specific recommendations for clinical pharmacy practice	1	1	0	0	0	0	0	6.5
4	Discussed the role of the pharmacist and/or impact to the profession of pharmacy in regards to the use of the treatment	2	0	0	0	0	0	0	7

Conclusions Comments

Conclusions were supported by the data presented. I thought you could have been a little more definitive in your recommendation.

It seemed to me that the your fundamental recommendation is that statins demonstrate a mortality benefit regardless of adverse effects so it would be best to identify strategies to keep patients on statins even if they are experiencing significant adverse effects like myalgia.

Question Answer Session

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Succinctly, yet thoroughly answered audience questions	2	0	0	0	0	0	0	7
2	Encouraged questions and interaction with the audience	1	1	0	0	0	0	0	6.5

Question Answer Session Comments

I think that not having a pause between transitions did not give the audience time to formulate questions, though you did let the audience know to interrupt at any point to ask questions.

You did a good job of answering questions and prompting questions from the audience.

Overall Knowledge Base

#	Question	A	A-	B+	B	B-	C+	C	Mean
1	Demonstrated knowledge of subject beyond the facts presented in the seminar	2	0	0	0	0	0	0	7
2	Student is able to distinguish the difference between clinical and statistical significance	1	1	0	0	0	0	0	6.5
3	Student is able to look beyond the author's conclusions and offer insight into the overall study results	2	0	0	0	0	0	0	7
4	Student is able to discuss conclusions in the context of previous research and in comparison to current practice/therapy	2	0	0	0	0	0	0	7
5	Student is able to think on his/her feet. May theorize if not sure of answer, but identifies answer as such	1	1	0	0	0	0	0	6.5

Overall Knowledge Base Comments

Nice job of introducing the most current ACC/AHA guidelines into the presentation as part of the background / intro.

You clearly demonstrated knowledge on this topic and were comfortable in presenting the material and answering questions.

Overall Comments

Overall, this was a very good seminar. Brayden you are to be commended for switching topics and finding a new topic. I thought you did a very good job with your presentation.

This is a particularly timely topic with the recent release of new guidelines for statin use which could increase the number of patients on these agents. I also liked your handout - it was well constructed so the most pertinent information was easily accessible.
